Professional background

Dr Rajiv Singh is a consultant psychiatrist at South Coast Private hospital caring for both inpatients and outpatients. Dr Singh is a general adult psychiatrist seeing all ages with an interest in young adults with anxiety, depression, trauma, emotional dysregulation and personality disorders.

He worked with young people and their families/networks within a relational psychiatry model. He has completed three-years of training in Open Dialogue; with a strong interest in Dialogic Practice. He also has experience in a number of therapies, including psychopharmacology, informed by attachment, family, cognitive, dialectic/dialogic and psychodynamic models of therapy. He undertakes a comprehensive assessment and then tailoring therapy to the unique needs of the individual.

Clinic locations

Dr Singh is available for consultations at South Coast Private Hospital's co-located psychiatry private practice.
